

springs

Western Spring and Wire has become a leader in spring manufacturing with products that span almost every industry from coast to coast.

We can provide Compression, Extension or Torsion springs – all quality built to meet your needs.

compression, extension & torsion springs

Western Spring and Wire is very easy to do business with, whether you are inquiring on-line, by phone or by fax. You are invited to work with our CAD specialists to develop precise specifications for special projects.

We are a fully diversified wire forming manufacturer producing Compression, Extension and Torsion Springs to meet your requirements. We are especially proud of our "Short-Run" and "Prototype" division which is always ready to provide fast and accurate support when stock runs low or emergencies arise.

The next time you need quality industrial springs, think Western Spring and Wire.

springs

You get more than the right springs when you specify Western Spring and Wire. You are also getting the peace of mind that comes from the quality built into every spring we produce.

our commitment to excellence

That quality originates with our CAD specialists who work closely with you to develop precise specifications for each job. Next, we take care to select the best choice of raw materials – high grade Music, Hard Drawn, Oil-Tempered, Chrome Silicon, Stainless Steel and Inconels. Then, it is over to our manufacturing and quality control specialists who work as a team to ensure your order conforms to the most stringent standards.

That level of assurance we give to all our customers. It is what has made us an industry leader.

Western Spring and Wire... you can depend on our commitment to excellence.
